# What's missing
in your leadership style?

A leader who doesn't use **Cool Blue** energy may:

- Think big picture but not small detail
- Make rash decisions
- Be careless, disorganised and unstructured

A leader who doesn't use **Sunshine Yellow** energy may:

- Work solo instead of including others
- Lack flexibility and be overly rigid
- Be task-focused and forget about the people

A leader who doesn't use **Fiery Red** energy may:

- Make decisions reluctantly
- Take action slowly
- Lack focus, drive and direction

A leader who doesn't use **Earth Green** energy may:

- Focus on what's at hand instead of the bigger picture
- Be dismissive of others' choices
- Not consider the personal consequences when making decisions

What impact might this have on your team?
